# CRS304-4XG-IN

\$ 199

PDF

Compact, powerful, and ready to simplify your 10 Gigabit network setups

EXTRA GIGABIT ETHERNET  
PORT FOR MANAGEMENT

DURABLE, LIGHTWEIGHT  
ENCLOSURE

MASSIVE HEAT SINK FOR QUIET,  
FANLESS EFFICIENT COOLING

ROUTEROS V7 AND  
SWITCHOS DUAL BOOT

MULTIPLE MOUNTING OPTIONS,  
DIN RAIL MOUNT INCLUDED

4X WAYS OF POWERING:  
2X DC JACKS, POE-IN, 2-PIN TERMINAL

Introducing the CRS304-4XG-IN – a compact yet highly capable 10 Gigabit Ethernet switch designed to simplify your network setup routine. Unlike typical 10 Gigabit products, the new CRS304 is equipped with four ready-to-use 10 Gigabit Ethernet ports straight out of the box. That's right – you don't need any extra SFP modules, just pure plug-and-play! Also, there is an additional Gigabit Ethernet port – for management purposes.

**10 GIGABIT ETHERNET PORTS,**  
READY TO USE OUT-OF-THE-BOX, NO EXTRA MODULES NEEDED!

(SUPPORT 10M / 100M / 1G / 2.5G / 5G / 10G SPEEDS)

## Innovative Design Meets Silent Operation

The CRS304 features an enclosure that doubles as a robust, lightweight heat sink, eliminating the need for active cooling. This fanless design ensures silent operation, making it ideal for any environment where noise is a concern – offices, libraries, or even your bedroom homelab! The sturdy form-factor provides a premium feel, balancing comfortable weight and durability, all at an accessible price point.

## Versatile Mounting Options

This switch includes a convenient DIN rail mount on the side and standard screw attachment points on the back, allowing for seamless integration literally anywhere. Furthermore, the side DIN rail mount can be moved to the back of the switch.

## Multiple Powering Options for Ultimate Reliability

Power redundancy is a key feature of the CRS304. It offers **four different power input options**: two DC jacks, a 2-pin terminal, and PoE-in. The switch automatically selects the power source with the highest voltage, ensuring uninterrupted operation.

## Small frame, Big Game

Powered by a dual-core ARM CPU and the mighty Marvell Prestera switch chip, the CRS304 delivers exceptional performance for its tiny size. Port-to-port forwarding, broadcast storm control, MAC filtering, VLANs, traffic mirroring, bandwidth limitations, and even some Layer 3 hardware offloading – not a problem for the CRS304-4XG-IN!

## Your Backpack Server Room

The CRS304's small form factor and enhanced durability makes it an ideal choice for both stationary and mobile applications. Place it on your desk or keep it in your backpack for on-the-go networking – this is a must-have switch for any network administrator.

# G1070

\$ 199

PDF

Open Frame 500W replacement PSU for the CRS328-24P-4S+RM switch.

## • Specifications

Product code	G1070 - Open Frame PSU
Output voltage and current	53Vdc 8.8A and 26.5Vdc 17.6A
Power	500W
Power supply (input)	90-264Vac
Dimensions	120 x 284 x 38 mm

# G1270

\$ 259

PDF

Open Frame 750W replacement PSU for the CRS354-48P-4S+2Q+RM switch.

## • Specifications

Product code	G1270 - Open Frame PSU
Output voltage and current	53Vdc 13.5A and 26.5Vdc 27A
Power	750W
Power supply (input)	90-264Vac
Dimensions	145 x 284 x 38 mm

- 8x Gigabit Ethernet ports
- SFP (supports 2.5G)
- Container support
- Modern dual-core 800 MHz ARM CPU
- 512 MB of RAM
- PoE-in/PoE-out
- Extremely durable metallic case
- USB 3.0 for extra storage or mobile internet

- 10x Gigabit Ethernet ports
- 10G SFP+
- PoE-in/PoE-out
- 1GB of RAM
- Quad-core 1.4 GHz Cortex CPU

- 7x Gigabit Ethernet ports
- 2.5 Gigabit Ethernet
- 10G SFP+
- Mighty quad-core 1.4 GHz ARM CPU
- 1 GB of RAM
- Extra storage: 1 GB NAND
- Multiple powering
- Extremely durable metallic case
- PoE-in
- USB 3.0

- 16x Gigabit Ethernet ports
- 2x 10G SFP+ cages
- Built-in dual redundant power supplies
- Incredible single-core performance
- Resilient quad-core 1.7 GHz ARM CPU
- 4GB of RAM
- Silent, passive-cooled version available as well

## TRAIN THE TRAINER

October 30 - November 1

Do you want to become a MikroTik certified trainer and conduct your own training courses?

Then join our Train-the-Trainer course in Riga this autumn - we will teach you all there is!

As always, we offer a discount code for your stay in the local [Rixwell](#) and [Wellton](#) hotels: *Mikrotik2024*
